PROFILE

I am a final year undergraduate at the University of Moratuwa, Faculty of Information Technology, passionate about full-stack development and modern software engineering. I enjoy collaborating in teams to design and implement efficient, user-focused solutions. I am highly motivated to learn new technologies, adapt to challenges, and contribute to innovative projects that create real-world impact.

EDUCATION

(2023 - Present)

BSc (Hons) in Information Technology

University of Moratuwa, SL.

CGPA 3.47/4.00

(2019 -2022)

G.C.E. Advanced Level (A/L) Examination (2021) in Physical Science Stream

Dharmaraja College Kandy, SL.

1A 2B - Z = 1.6627

2018

G.C.E. Ordinary Level (O/L) Examination (2018)

8A 1B

SKILLS

Programming Languages

Java, C, C#, Python, JavaScript, TypeScript

Cloud

AWS, Firebase, Vercel

Mobile Development

Flutter, React Native

Databases

MySQL, MongoDB, Oracle DB, SQLite.

Web Development

HTML, CSS, React.js, Next.js, Node.js, .NET, Spring Boot, Spring Security, Microservices

Tools & Other Skills

Git, Github, Figma, ClickUp, Canva, Postman, IoT (Arduino, ESP32), OOP, DSA, Networking

WORK EXPERIENCE

Intern Software Engineer | Sri Lanka Insurance Corporation General Ltd.

February 2026 – August 2026 | On-site | Colombo, Sri Lanka

Contributed to the development and maintenance of 10+ enterprise software projects, including both internal company systems and public-facing applications. Gained hands-on experience in full-stack development, REST API development, database management, technical documentation, testing, debugging, and deployment while working across the complete Software Development Life Cycle (SDLC). Collaborated with cross-functional teams to deliver scalable enterprise solutions and gained valuable domain knowledge in the insurance and finance industry..

- **Technologies:** .NET, C#, Oracle SQL, REST APIs, Github, Postman.

PROJECTS

(2024/2025) - POINTEDGE - POS WEBSITE

Developed a Point of Sale (POS) web application for a supermarket as part of a second-year software development group project in collaboration with Taycantech Company.

Responsibilities included implementing discount and loyalty management features to enhance customer engagement and streamline promotional offers.

- **Technologies:** React.js, Chakra UI, Spring Boot, MySQL

(2025) – MSGLYAPI – SaaS Platform

Developed a SaaS platform that provides SMS, email, and OTP verification services accessible via API keys or an intuitive web interface. Designed and implemented user dashboards to manage usage and view analytics, and built an admin control panel with role-based access for platform management. This was an individual project created to meet personal and client needs, ensuring scalability and secure deployment.

- **Technologies:** Node.js, Firebase, Python, Termux, Next.js, Tailwind CSS, DigitalOcean, Vercel

(2025) – SECOND CHANCE – Mobile Application

Developing a mobile application for posting lost and found items and creating community posts with built-in chat features. The system also includes an admin application to efficiently manage posts, users, and reports. This is an individual project created to meet personal and community needs.

- **Technologies:** Flutter, Flutter BloC, Node.js, Firebase

(2023/2024) – GREEN CARE ASSIST – Hardware Project

Developed a condition-controlled ornamental plant box, a microcontroller-based system that monitors and regulates temperature and humidity to maintain optimal growing conditions for ornamental plants. My role involved designing and managing the temperature and humidity control system. This was a first-year group hardware project.

- **Technologies:** C++, Arduino, ESP32

Details of more projects can be viewed on my [LinkedIn](#) profile and [portfolio](#) website.

SOFT SKILLS

- Teamwork, Quick learner, Problem solving, Time management, Adaptability , Critical Thinking
- Languages : Sinhala(native) , English

CERTIFICATIONS

- Cloud Mastery with AWS
- Mastering CI/CD Pipelines
- Introduction to Cybersecurity
- AlgoXplore 1.0- participation
- MoraXtream 9.0- participation
- Coderush-2024- participation

INTERESTS

Cyber Security, Networking, AI, Multimedia editing, Music, Movies, Travelling, Hiking

EXTRACURRICULAR ACTIVITIES

Member - Mora Hiking Club | Nature Team | Leo club

Details of all projects and certificates can be viewed on my [LinkedIn](#) profile and [portfolio](#) website.
